- Unrivalled community and civil support
- Mission-centric, dedicated civil nerve center committed exclusively to troop support and the DLA into-plane fueling contract
- Impressive fleet of aircraft ground equipment and support services surpassing those found at most large-scale military installations

COMPANY OVERVIEW

Honored to be a DLA contractor since 2005, Port City Air has emerged as the Premier East Coast aircraft refueling and troop support location for flights traversing the North Atlantic. As a mission-centric, safety-conscious company, Port City Air has supported thousands of trans-Atlantic and trans-Continental civil and military crossings. Our proven track record underscores our commitment to offering the best products and services in support of our troops and their mission.

CORE COMPETENCIES

Mission Preparedness: Organize, Train, Equip

Mission Efficiency: Communicate, Collaborate, Cooperate

Mission Success: Empower, Execute, Excel

DIFFERENTIATORS

Location: Situated on the coast of Northern New England at a former SAC base, Port City Air and Pease International Airport are strategically located and operationally prepared for trans-continental and trans-Atlantic missions regardless of scope, size or complexity.

Infrastructure: As a joint use military installation and civilian airfield, Portsmouth International (KPSM) is an ARFF Index E, Port of Entry airport able to launch and receive aircraft of any size. Operations are conducted 24 hours a day, 365 days a year.

Scope of Service: As the DLA contract fuel provider at KPSM, Port City Air dispenses contract fuel with or without FSII, stored in our 350,000-gallon fuel farm and rolling fleet of trucks. Non-contracted JP-8 fuel is also readily available. With a versatile fleet of ground support equipment capable of supporting any type of civil or military operation, Port City Air is well poised to handle any mission, any complexity.

Continuing Investment: As military customer needs change, we learn, adapt, and invest in the equipment, training, and personnel needed to continue exceeding expectations.

STRONG PAST PERFORMANCE

Air Defender | Red Flag Alaska | Italian Air Force | NATO | RAF
